Washington April 8.—Philips of counsel for Secretary Schenck presented to the House to-day a request that he would decide whether a list of witnesses whom he desired to have summoned

Chairman stated that further time might be taken in considering the history of the Emma mine. The committee was not a body to make charges of corruption against any man without sufficient evidence before the committee to warrant investigation The association in absence of further light on the whole matter of the case had no alternative but to declare that the charges against Secretary Belknap were unfounded and unjustifiable in every particular and that the committee was entirely exonerated from any blame in connection with the matter.

Resolved That the thanks of the association are hereby tendered to the committee of the House of Representatives for the able, impartial and thorough manner in which they have conducted the investigation.

Resolved That the secretary be instructed to forward a copy of these resolutions to the committee.

Beecher being carried, the number of votes cast in favor of the committee was not stated, but it was understood that the majority was small. The report of the committee was read and is understood to state that while there is grave ground for thought investigation of the whole subject matter of the scandal the difficulty of carrying on two or more investigations at the same time is fully realized and therefore it is recommended that the association wait until the plan devised by the advisory council expires by limitation or until the report of the detectives' investigations is has reached before taking any further steps The report was received and its recommendations were adopted, with Rev. Beecher and a prominent part speaking in a strong and forcible manner He said he wanted this trial to be the last one. He denied all sham know the truth and he knew he was innocent There was nothing he had to dread from the closest scrutiny. Resolved That in the name of our accused brother in the interest of truth and christianity, this association desires and invite all persons claiming to have such evidence or bringing such charges to avail themselves of this means If they desire such help for laying the same before the commission of investigation.
